Dear Libby Residents and Interested Parties:

Enclosed is a draft brochure on asbestos, health issues and related topics for your review. I hope you will take the time to help EPA produce a brochure that will be informative and useful to people in Libby and nearby areas.

I have chosen you to review the document because of the constituency you represent, your familiarity with and interest in the issues, your expertise in a certain area, and/or your ability to communicate.

I know you are all busy and there is a lot to review here, so if you could at least make sure to review the parts that are most pertinent to your area of expertise, it would really help me to ensure the accuracy and "understandability" of the information. I am interested in your comments on the information itself, spelling, grammar and readability. I am also interested in taking out things that would make the document become dated right away. Please be as clear as you can about what you would change. If you propose alternate language, please write that language right on the brochure.

If you would like to ask others who do not appear on the list of addressees to review the document, please feel free. The only thing I ask is that I get any comments back by July 15. You may drop off the brochures with Linda Newstrom at the EPA Information Center and she can mail the brochure back to me with your comments. You can mail them directly to me at EPA Montana Office; 10 W. 15th St., Suite 3200; Helena, MT 59626 You may also call me toll free at 1-866-457-2690 x 5037.

Thanks in advance for your help.

Sincerely,

Wendy Thomi
Community Involvement Coordinator

Addressees: Brad Black
Ron Anderson
Tony Berget
Pat Naughton

General Information about the enclosed DRAFT Community Resource brochure

- ✓ It is a DRAFT for review of content and style. The final version will have clean edges, especially the overlapping bottom edges. The interior of the final version will be trimmed to be slightly narrower than the cover.
- ✓ The final version will have a full color cover with a two-color (black and blue) interior. The text and graphics inside that are lighter in tone will be blue in the final.
- ✓ The final version will be printed on a heavier paper with a cardstock cover.
- ✓ The final version will be held together with two staples in the spine.
- ✓ There will be a different map on the back page that shows the layout of the site.
- ✓ The "x's" in the draft version are placeholders for numbers that have not been finalized yet (e.g. xxx cubic yards).
